

Re: MB Docket No. 15-149

Mr. Tom Wheeler
Chairman
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Dear Chairman Wheeler,

The Fenton Regional Chamber of Commerce supports Charter's proposed merger with Time Warner Cable and acquisition of Bright House Network.

We are a membership based organization of 493 members. It is our responsibility to pay close attention to issues that will impact our members. We are pleased to give our full support in the case of this proposed merger as we believe it will benefit Michigan businesses and residents.

New Charter will be able to make significant investments in technology and infrastructure that will make a major economic impact in our region. New Charter's commitment to broaden access to broadband by building upon Bright House Network's broadband program for low-income consumers will not only help provide high-speed service to rural areas, but will continue to create thousands of U.S. based jobs.

On behalf of the Fenton Regional Chamber of Commerce, for the reasons stated above, we ask that the FCC grant approval for this merger.

Respectfully,

A handwritten signature in blue ink, reading 'Shelly Day', is positioned below the word 'Respectfully,'. The signature is fluid and cursive.
